Fokkema and Zeileis (n.d.)

$$e^{i/pi} + 1 = 0$$

R Markdown

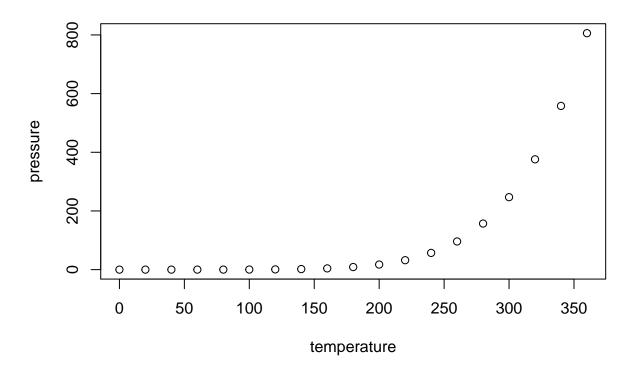

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com. When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

summary(cars)

```
speed
                         dist
                           :
                              2.00
##
           : 4.0
                   Min.
    1st Qu.:12.0
                    1st Qu.: 26.00
##
   Median:15.0
                   Median : 36.00
##
    Mean
           :15.4
                   Mean
                           : 42.98
##
    3rd Qu.:19.0
                    3rd Qu.: 56.00
   Max.
           :25.0
                           :120.00
                   Max.
```

Including Plots

You can also embed plots, for example:

Note that the \mbox{echo} = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.
